

NUROY

BIO

At 9 years old, I had my first contact with a Dj panel. I started playing with. This without knowing what I was doing, just messing around. One year later I threw my Birthday party with me as a Dj. From Then I Went to a music school, where I learned several instruments and theories. I started my First Dj team when I was 18 and it went very well. After troubles and many obstacles, Nuroy was born.
